Genesis Logic

Add/Remove

Shipping Carrier Field – This field is displayed for orders that are in the *READY TO PICK & PACK* status. The default is “Genesis Logic” which means Genesis will determine the fastest and lowest cost option to ship the order. Click the “Add/Remove” button to override the Genesis Logic and ship the order using your choice. For example, you can choose “fedex_home_delivery” if you want to ship the order to patient home via FEDEX.

Order Dashboard (TRIAGE Users only)

Select this dashboard from the dropdown . . .

This graph shows a bar chart of the number of orders that are currently in the following status:

- Approved
- In Triage
- Assigned to Biller
- Biller Approved
- Ready to Pick & Pack

Date Range

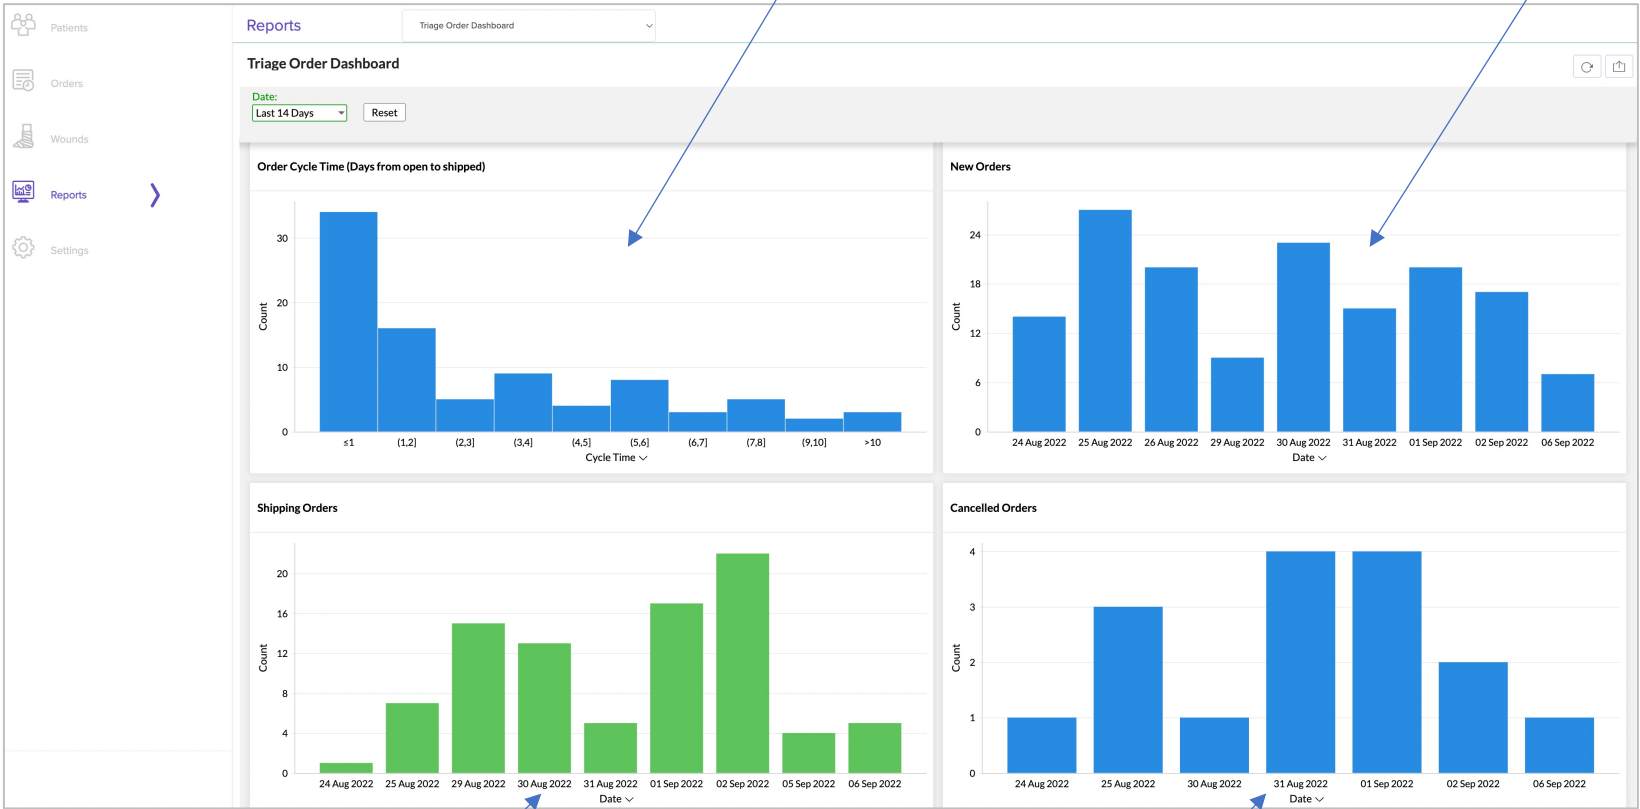

This bar graph shows the average cycle time in days for an order to go from In Triage to Shipped (in the date range selected) – Goal is 4 days

This bar graph shows the average number of NEW orders started in Triage per day (in the date range selected) – Capacity = 15 orders

Order Dashboard (TRIAGE Users only) - Continued . . .
